- Ohio

OVERVIEW

As a litigator, I represent clients faced with various legal issues in the areas of commercial litigation, personal injury litigation, real property disputes, and oil and gas litigation. I also represent landowners throughout Ohio in oil and gas lease negotiations, pipeline right-of-way agreement negotiations, and mineral sale transactions. I have litigated on behalf of many individuals and businesses on significant matters throughout Ohio courts and have successfully argued two cases before the Supreme Court of Ohio. I pride myself on my attention to detail and ability to succinctly and persuasively communicate my client's position in briefing and motion practice. Preparation is the foundation to success and I am always prepared for the challenges I face on behalf of my clients.

My clients are important to me, so I work to cultivate relationships built on trust and transparency. I take time to get to know my clients so that I can better understand and resolve their various legal issues, offer proactive guidance, and help them achieve their desired outcomes. If trial is necessary, I will fight for my clients in the courtroom to ensure their interests are protected.

As a litigator, I represent clients faced with various legal issues in the areas of commercial litigation, personal injury litigation, real property disputes, and oil and gas litigation.
