OVERVIEW

I help organizations, from small businesses to large international corporations, navigate the complexities and sensitivities of workers' compensation law. My clients include manufacturers, health care providers, service providers, schools and government agencies.

As a Certified Specialist in Ohio's Workers' Compensation Law, I know how to educate clients on the claims process, provide a roadmap for them to follow and ultimately keep them from being surprised.

At the end of the day I want my clients to know that I am here to take care of them, listen to them and help them get the results they desire.
